

2023 APPLICATION FOR MASTERS AND PHD PROGRAM

Come and join the SAMRC/CPUT Cardiometabolic Health Research Unit as a Masters or PhD candidate in year 2023. The research unit's focuses are aimed at integrating genetic mechanisms and risk factors associated with obesity, diabetes, hypertension and chronic kidney diseases in a South African setting

LABORATORIES

The research unit has 5 laboratories, namely: cell culture, proteomics, genomics and sample preparation laboratories

SUPERVISORS AND SUPPORT FOR STUDENTS

Students will be paired with supervisors linked to a respective field of research. Supervisors will guide students in laboratory and written work. A dedicated work area is allocated for students to conduct their work and interact with other students within the unit.
